## World AIDS Day

According to HIV.gov “The first World AIDS Day took place in 1988, providing a platform to raise awareness about HIV and AIDS and honor the lives affected by the epidemic. There has been significant progress in addressing HIV and AIDS thanks to advancements in medical research, increased access to treatment and prevention, and a broader understanding of the virus.

World AIDS Day serves as an important reminder that we must remain steadfast in our commitment to prevent new HIV infections and provide essential services to all people living with HIV globally. In 2024, we will commemorate the 37th World AIDS Day with the theme, “Collective Action: Sustain and Accelerate HIV Progress.” (HIV.gov, 2024)

In Sacramento, World AIDS Day was celebrated on the Steps of the Capital and at the Sacramento LGBT Center.

Organized by Capital City AIDS Fund, The Capitol Dome shone RED in honor of this day and the lives impacted by HIV/AIDS. The event featured a candlelight ceremony, powerful music by the Gay Men’s Chorus, and the presence of the Sisters of Perpetual Indulgence.

The Sacramento LGBT Community Center hosted an 80’s themed World Aids Day brunch & tribute.

## National Black HIV/AIDS Awareness Day

February 7 is National Black HIV/AIDS Awareness Day (NBHAAD), according to HIV.gov “It was first observed in 1999. This observance is a day to acknowledge how HIV disproportionately affects Black people.

Black communities have made great progress in reducing HIV. Yet racism, discrimination, and mistrust in the healthcare system may affect whether Black people seek or receive HIV prevention services. These issues may also reduce the likelihood of engaging in HIV treatment and care. NBHAAD is an opportunity to increase HIV education, testing, community involvement, and treatment among Black communities.” (HIV.gov, 2025)

Reference: [National Black HIV/AIDS Awareness Day #NBHAAD | HIV.gov](#)

## HIV Is Not A Crime Awareness Day

According to hiv.gov “February 28 is HIV is Not a Crime Awareness Day, which was first observed in 2022 by the Sero Project in collaboration with the Elizabeth Taylor AIDS Foundation. This awareness day is an opportunity to amplify the voices of those who have been criminalized based on their HIV status. (HIV.gov, 2025)

Reference: [HIV Is Not A Crime Awareness Day | HIV.gov](#)

[According to the Sero Project](#), HIV criminalization laws consist of wrongfully using a person’s positive HIV status in a criminal prosecution and heightening charges or punishments simply because the person charged is living with HIV. Additionally, an HIV-specific law specifically aims to target PLWH for engaging in conduct that is only deemed illegal because of their HIV status. Many of these laws can lead to PLWH being sentenced because they did not disclose their status, even if HIV is not transmitted. HIV criminalization laws are present in almost [30 states and disproportionately impacts](#) Black and Latine communities; sex workers; and LGBT+ individuals.

## Awareness Days

December 1 is World AIDS Day
